What is Equity Sales Finance, Inc. (ESF)?

ESF is a finance company that provides finance services for individual sales merchants and sales companies nationwide. Some examples of services and/or products that we provide finance services for include:

- Tax preparation service fees
- Medical/Dental credit/financing servicing
- Automobile warrant credit/financing servicing
- Educational products/services credit/financing servicing
- Household services credit/finance servicing
- Home goods credit/finance servicing
- And more!

Why is there an inquiry on my credit report from Equity Sales Finance, Inc. (ESF)?

Before we assume finance services for a merchant or company, we must first run a credit check prior to setting up the services. This is customary and should not impact your credit in a long-term manner. In fact, making your payments on time, over time, will improve your credit score. An inquiry might also show because one of the merchants with which we do business may have made an inquiry as part of the consumer's interest in financing their transaction.

What if I am dissatisfied with a service or product?

If you are dissatisfied with a product or service, please contact the merchant/salesperson who sold you the product. ESF only provides finance services (billing and payments). Salesperson information may be found on your contract, OR you may find this information by logging into your web portal and clicking on the Sales Information Tab.

If you are still having issues or cannot contact the merchant/salesperson please call our Customer Service representatives as we may be able to assist you.
